

Maksym Rusnak

Full-Stack Software Developer

rusnak.maksym05@gmail.com ❖ 419-515-7402 ❖ Tampa, FL ❖ [GitHub](#) ❖ [LinkedIn](#) ❖ [Portfolio](#)

SKILLS & INTERESTS

- **Skills :** JavaScript, NodeJs, ExpressJs, React, HTML, CSS, MongoDB, REST API's, Axios, NoSQL, Passport, Mongoose, Express-Session, JWT, Middleware, Git, Tailwind, Bootstrap, Git, SQL, Wireframes, Postman.
- **Interests:** soccer, fixing cars, board games.

PROJECTS

Inline-Post (video demo)

Car enthusiast forum with ability to post, comment, send private messages, list cars for sale and more.

- Single page application developed using MongoDB, ExpressJs, React and NodeJs
- Developed REST API with ability to CRUD models on the frontend
- Designed Authentication middleware using JSON Web Token and bcryptJs to handle passwords
- Used JWT Payload to set up admin role and protect the routes

Find a Friend (video demo)

Pet adoption service that helps you find animals available for adoption and more.

- Built using ExpressJs, NodeJs, Axios, MongoDB and HandlebarsJs
- Implemented 3rd party REST API using Axios to get data and filter it based on users input
- Connected MongoDB to give user the ability to CRUD models
- Set up authentication using Express-Session and bcryptJs to hash passwords

EDUCATION

IronHack

December 2022

Software Development

Miami, FL

- Designed front end projects using HTML, CSS, React, Bootstrap
- Created full stack projects using ExpressJs, NodeJs, MongoDB, Mongoose, Axios, Bootstrap and HandlebarsJs
- Developed a single page application using ReactJs and REST API built with NodeJs

National Aviation University

July 2015

Aircraft Logistics

Kyiv, UA

- Aircraft logistics operations
- Foreign economic activities

WORK EXPERIENCE

AT&T

Oct. 2019 – Dec. 2021

Cell tower engineer

Syracuse, NY

- Planned projects as a team leader, managed crew tasks and made sure that job is completed up to client specification with minimum equipment downtime.
- Reduced expenses on a single project by 17% on average with 0% trouble call rate after project completion.
- Communicated closely with network administrators and service engineers to deliver quality service.
- Analyzed 1-5 user-generated trouble tickets a day to determine causes of problems and took appropriate action for resolution in a timely manner.
- Connected equipment to network by implementing an initial set up process that ensured stability and use of network services for users.

Comcast

Oct. 2015 – Oct. 2019

Service technician

Fort Myers, FL

- Managed team-projects wiring computer networks and phone systems for commercial accounts.
- Conducted on-site inspections, installations and system troubleshooting.
- Educated customers on equipment use and troubleshooting techniques with 97% customer satisfaction rate.
